Chief Andrade,

A person in parliament once told Churchill, "If you want to know who the organ grinder is pull on the monkey".

With that said, your LT Williams first told me that he had to wait until the AG's Office (who has a conflict) decided it was okay to release the report, now LT Williams says he has to wait for authorization from you.

Frankly, I think you are both full of B.S.

What you are telling me is that the AG's office needs to tweet up the criminal report that they are involved themselves with and with their would be clients to defend, Merced County Counsel James Fincher and DA Morse for jury tampering.

It's like going to the rapist and asking if he could keep safe the evidence you have of his molesting a child.

Please quit jerking me around and provide me a copy of a report that I am legally entitled to that is already tainted a thousand ways to Sunday....NOW.

Thanks.

You will get a copy as soon as my chief authorizes me to do so. As I told you before I have nothing to hide. I am obligated to follow the lawful orders of my superiors though.

Lt Williams,

I frankly don't give a rat's butt what the AG office tells you about the complaint I filed.

I am entitled to know what it says.

I request that you provide me a copy of it now.

The AG's office has a conflict according to PC 936

Thank you.

Hello Gene, I have finished my portion of the jury tampering investigation. It is being forwarded to the AG's office. The gentleman I talked to there is Tom Maggio. I don't know if he is an investigator or if it will be assigned to someone else. As soon as they review the case and get back with me we will be able to release it to you, unless I am directed otherwise by the AG. I appreciate your patience during this as it has been a long, drawn out process. I know you would like some details at this time, but I have been instructed to wait until the AG's office does their part with the case until I can release details to anyone. I will contact you as soon as I hear back from the AG.

Matt Williams
